Contract Management in Practice

Qualification for Contract Managers - certified by TÜV Rheinland

Who's it for?

- Specialists and managers from legal, sales, procurement, controlling, IT and accounting department, responsible for managing and monitoring contracts

The compact training provides solid expertise in organization and tools for professional contract management. You learn to manage contracts with more transparency and efficiency.

Are you taking full advantage of all possibilities of your existing contracts? Are you aware of all benefits which you might claim? Do you know which contracts are affected in case of reorganizations? The acquired knowledge enables you to optimize internal processes, to compliantly implement rules and to save costs.

You finish the training with your certification by TÜV Rheinland.
